

KB steunt Open Knowledge Maps

02-09-2022 09:27

The screenshot shows the Open Knowledge Maps website. At the top left is the logo with the text "OPEN KNOWLEDGE MAPS" and the tagline "A visual interface to the world's scientific knowledge". To the right is a navigation menu with links for Search, About, Team, Community, Projects, News, FAQs, Get in touch, and Become a supporting member. The main content area has a teal background with the heading "Map a research topic" and the subtext "Get an overview - Find documents - Identify relevant concepts". A search interface is displayed, featuring two radio buttons: "PubMed (life sciences)" and "BASE (all disciplines)", with "BASE" selected. Below this is a "Refine your search" dropdown menu, a search input field with the placeholder "Enter your search term", and a "GO" button. A suggestion line reads "Try out: [digital education](#) [climate change](#) AND [impact](#)". On the right side of the main area, there is a circular badge celebrating "5 years OMMAPS". In the bottom left corner, there is a graphic of a stack of papers with the text "BASE Discover 270+ million documents".

De KB vindt het belangrijk dat wetenschappelijke publicaties voor iedereen toegankelijk en goed te gebruiken zijn. Daarom is de KB sinds augustus 2022 supporting member van Open Knowledge Maps, een tool die het makkelijker maakt niet-wetenschappelijke publicaties te doorzoeken. Als supporting member denken de KB onder meer ook mee over de doorontwikkeling van de tool.
